OBJECTIVE

Front-End Development - React | Next.js

EDUCATION

Analysis and Systems Development | UNOPAR

JANUARY/2022 – DECEMBER/2023

The course covers various technology-related areas such as Cybersecurity, Data Science, Cloud, Systems Architecture, Networks, Programming, among others

Software Engineering | 42 São Paulo

APRIL/2022 – DECEMBER/2024

A technology school born in France that brought an innovative teaching methodology to Brazil. Its projects teach students how to write their own function library and terminal, up to the development of grand systems and cloud games. Until now, we have used C language and Unix Shell in our projects.

PROFESSIONAL EXPERIENCE

Front-End Developer | People Interactive

SEPTEMBER/2022 – DECEMBER/2023

Worked with significant clients in the market, providing me with numerous challenges and knowledge that solidify all my learning.

Technologies: HTML, CSS, SASS, Tailwind, JavaScript/TypeScript, React.JS, Angular, Next.JS, Clean Code, Styled Components, SOLID, Responsiveness, Git and Gitflow, SCRUM, VTEX.
